of some, he continued, "to assume that we are facing a crisis. The only way to meet any emergency is by acopting smergency measures. The personnel and material needed for military purposes should be immemilitary purposes should be imme-diately mobilized. Every nerve should be strained and every resource drawn upon and nothing overlooked necessary to preserve and defend us, regardless of cost and of other con-siderations.

There is common agreement amona new who have studied the subject in lingenity that we should have a face the continental United States of 500, 0 men subject to instant call.

increase National Guard.

Ther immediate problem, therefore, seems to be now shall we meet the requirements.

The adjutant general reaches the conclusion that he cannot expect under reason conditions, to recruit more than all 800 men per year for the army. If would, therefore, seem impracticable in the last degree to consider that the problem can be solved by providing for a
